

Arylide Yellow Light
Series 3
60/120 ml

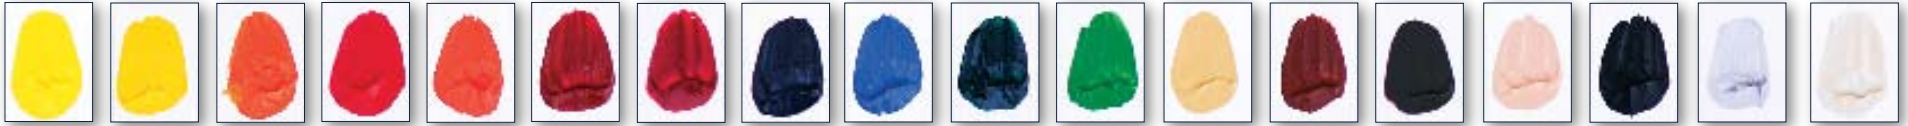

C.P. Cadmium Yellow Light
Series 7
60/120 ml

This 93-color line contains only the highest quality pigments, which have been selected for purity and lightfastness. Each color in the line has been formulated to achieve the maximum pigment concentration and color strength consistent with good handling properties and stability. Because no fillers or extenders are used in Quiller Acrylics, most colors dry to a natural gloss while those with larger pigment particles create a more satin finish. Quiller Acrylics have a smooth, buttery texture that retains brush and knife marks yet is not stiff or difficult to manipulate. They allow the user to create bold, crisp impasto effects normally associated only with oil colors.

**KEY: Each color name is listed (C.P. Cadmium Red Medium), followed by its series number (Series 9), followed by the size available (60/120 & 250 ml).
**The following are also available: Gel Medium Gloss/Matte, Polymer Medium Gloss/Matte, Top Coat Gloss, Gesso White, Gesso Black, Self-Leveling Gel, and Modeling Paste.
Call 1 (800) 876-5760 for more information about these products.**
